A British general and an Australian colonel were walking down a street in Cairo. They met many privates, and each time the colonel saluted he muttered, "And so are you."

The general's curiosity got the better of him, and he asked: "Why do you always say that?" The colonel answered: "Because I was once a private myself and I know what they're thinking."

"I'm losing my punch," said the flapped as she hurriedly left the cocktail party.

How Rent Control Affects You —

as a landlord as a tenant

AS a part of the general plan to halt further increases in the Cost of Living, the Government on December 1, 1941, extended the policy of the Price Ceiling to rentals for all commercial and housing accommodation in Canada. Generally speaking the new rental laws provide that:

- (1) No oral or written lease for any commercial or housing accommodation (furnished or unfurnished) may legally be made after October 11, 1941, at a rental higher than the rent lawfully payable under the lease in effect on that date unless an application for increased rental has been made to and approved by a local Rentals Committee of the Wartime Prices and Trade Board. Such an application must be based on specified circumstances arising since October 11, 1941.

NOTE: Land and premises used solely for farm purposes are not subject to rent control.

- (2) A tenant is entitled to a renewal of his lease unless the landlord requires the premises for certain reasons named in the Board's Rental Order and has given the tenant a written notice to vacate within the time and in the manner prescribed therein. If this notice to vacate is contested by the tenant, the landlord must secure a Court Order for possession.

- (3) Copies of all Rental Orders and Regulations of the Board and application forms for rental variations are available from any of the regional or sub-regional of the Wartime Prices and Trade Board, and, in areas where such offices are not yet established, from the Clerk of any County or District Court or local Rentals Committee.

VIOLATIONS of these orders are punishable by law and should be reported in writing to the Prices and Supply Representative Regional Office, Wartime Prices and Trade Board, at the request of any of the following cities: Vancouver, Edmonton, Regina, Winnipeg, North Bay, London, Toronto, Belleville, Montreal, Quebec, Saint John, Halifax or Charlottetown.

STANLEY ORRIS,
Editor and Publisher

An Independent Weekly Newspaper issued each Thursday afternoon at the office of publication, **Champion, Alberta**. Subscription price per year: In Canada, \$2.00, United States and other countries, \$2.50. Classified Advertisements: 50c first insertion, 25c for each subsequent insertion, government, municipal and legal advertising at legal rates. Display advertising rates on application.

A plan to inform business men about price ceiling regulations by sending bulletins to all firms under license to the Wartime Prices and Trade Board is announced to-day.

"Every business which has already applied for or obtained a Wartime Prices and Trade Board

license is now on the mailing list to receive their bulletins", explained C. R. Morphy, Director of Licensing. "As each new application for license is received, the name of the applicant will be added."

Apart from the legal requirements which make it obligatory for every licensee to notify the Board after March 31 of any change in name, ownership, or character of his business within ten days after such change, such notification will enable the Wartime Prices and Trade Board to keep its mailing list for information up to date.

Every person who buys for resale, sells or offers for sale any goods must obtain a Wartime Prices and Trade Board license, unless he has already obtained one under a previous Board order. Farmers, gardeners, livestock and poultry producers, and fishermen, need no license unless buying for resale. Operators of private boarding-houses and employees of persons or

firms themselves subject to license are also exempt.

The current licensing order also applies to those providing services which have been brought under the price ceiling. These include: the supplying of electricity, gas, steam and water; telegraph, wireless and telephone services; transportation of goods and persons and the provision of dock and harbor facilities; warehousing and storage; undertaking and embalming; laundering, cleaning, tailoring and dressmaking; hairdressing and beauty parlor services; plumbing, heating, painting, decorating, cleaning and renovating; repairing of all kinds; supplying meals and beverages; exhibiting motion pictures; process manufacturing on a custom or commission basis.

License application forms have been distributed to all Post Offices. Upon completion these are to be mailed, post free, to the Director of Licensing, Wartime Prices and

Trade Board, Ottawa. There is no license fee.

Upon receipt of completed forms, the Director of Licensing will mail to each applicant, a license identification card bearing his license number which will be valid for the duration of the Maximum Prices Regulations. After March 31, any official or investigator of the Board may require the production of this identification card by any business subject to the price ceiling regulations.

Enquiries for further information should be addressed to the Regional Directors of Licensing at Halifax, Saint John, Charlottetown, Montreal, Winnipeg, Regina, Edmonton or Vancouver.

To Treat or not to Treat
This article is not, as the title suggests, a discussion of barroom etiquette. It is concerned with the more important, if less stimulating(!) subject of seed treatment.

Seed treatment is insurance and, like all insurance, costs something. We are all obliged to decide whether it pays to insure our crops, our lives or crops, and if we decide that in the long run we shall gain by carrying the risks ourselves, we don't insure.

So it is almost certain that treatment will save money. If, in 1941, we had smut in oats, covered smut in barley, or stinking smut (fusarium) in wheat, there is no doubt that the loss would have been considerable.

In Alberta, plant pathologists have agreed to recommend treatment of cereal seed with an organic mercury dust as a regular practice. In Manitoba crop districts 3, 4, 6, 9 and 10, farmers using their own wheat seed are advised to treat it with a fungicide or Lax.

By Order of the Wartime Prices and Trade Board

You Must Have a Licence by March 31, 1942

Every Person or Firm is Required to Have a Licence

1. if engaged in the business of buying for resale or selling any commodity; or
2. if engaged in the business of supplying any of the following services:

the supplying of electricity, gas, steam or water; telegraph, wireless or telephone services; transportation of goods or persons; the provision of dock, harbour, or pier facilities; warehousing or storage; undertaking or embalming; laundering, cleaning, tailoring, or dressmaking; hairdressing, barbering, or beauty parlour services; plumbing, heating, painting, decorating, cleaning, or renovating; repairing of any kind; the supplying of meals, refreshments or beverages; the exhibiting of motion pictures; process manufacturing on a custom or commission basis.

IF YOU HAVE ALREADY APPLIED FOR OR OBTAINED A WARTIME PRICES AND TRADE BOARD LICENCE UNDER A PREVIOUS LICENSING ORDER, YOU SHOULD NOT APPLY AGAIN

Why Licence Applications Should Be Made At Once

Apart from the legal requirements, licensing of your business will enable the Board to advise you quickly and fully of the price ceiling regulations that affect your business.

The name of every person who has been given a licence or who has already applied for a licence will be placed on the Board's mailing list. Your name will be added when your application is received.

To Get Your Licence

1. Get an application form at your nearest post office.
2. Complete the application and mail it, postage free. There is no licence fee.
3. You will receive by mail a Licence Identification Card bearing your licence number.

Those Who Do Not Need a Licence

1. farmers, gardeners, livestock or poultry producers, and fishermen, unless buying goods for resale.
2. employees of a person or firm which is itself subject to licence.
3. operators of private boarding houses.

NOTE: Persons who have already applied for or obtained a Wartime Prices and Trade Board licence should not apply again.

WHAT THE LAW REQUIRES YOU TO DO

After March 31, 1942, any official, representative, or investigator of the Wartime Prices and Trade Board may require you to produce your Licence Identification Card if you are subject to this licensing order.

After March 31, 1942, you must notify the Director of Licensing of the Wartime Prices and Trade Board, Ottawa, in writing, quoting your licence number, of any change in the name, address, or character of your business within 10 days of such change.

You must retain your Licence Identification Card. It will remain in effect, unless suspended or annulled, as long as the Maximum Prices Regulations are in force. If you are already licensed, a Licence Identification Card, valid for the duration of these Regulations, will be automatically mailed to you before March 31, 1942. You need not apply for a renewal and there is no licence fee.

Kenneth Arkley, R.C.A.F. Calgary, was the guest of his uncle, Robert Reid, on Saturday last.

E. J. McKee, Alvin Hedlund and Wong Jack were Sunday visitors at the A.7 ranch.

The Parkland Red Cross is well on the way to another successful year. A full line of members attended the meeting last Thursday. Mrs. Hugh Hawk is the president.

Wes. Cline returned from the Claresholm hospital on Wednesday last, where he has been a patient for the past three months, following a serious accident. He is recuperating fairly well, though on crutches.

Gophers have been romping around the prairie for the past two weeks. The grass is commencing to show signs of green and pussy willows are abundant in sheltered spots. "Hello, California! How do you like the snow?"

The Litchfield Branch of the Red Cross met at the home of Mrs. Hodgkinson recently, when the following officers were elected: Mrs. Dykstra, President, and Mrs. Art Saunders, Secretary Treasurer. Mrs. G. Hedlund is supervisor of knitting, while Mrs. Roy Haynes is in charge of the sewing.

And speaking of knitting—Miss P. Anderson of Parkland knitted 100 pairs of socks during the year 1941.

The Purchase of Sugar is Now Regulated by Law

As a prudent precaution, the quantity of sugar which may lawfully be consumed in any household is now restricted by law to an amount of three-quarters of one pound per person per week, and it is now unlawful to purchase more than two weeks' supply at any one time or to make any purchase if present supplies are sufficient for more than two weeks.

This step has been taken to conserve the satisfactory reserve stock of sugar in Canada and is an assurance to the consumer that there is no reason for heavy buying of sugar.

Ration coupons will not be used to enforce the sugar limitations in Canada. The supply of sugar in our country has been under control for more than two and a half years and the homekeeper has always been able to satisfy her needs; she will continue to be able to do so and the price ceiling law protects her against any increase in price.

The maintenance of the new regulation governing the purchase of sugar rests, as the success of all laws in a democratic country must rest, upon the loyal support of the people. Any consumption of sugar in excess of the quantity stipulated by this regulation is not only an offence against the law, but is also a betrayal of the war effort and consequently an offence against decency.

Reports received from retailers indicate that in some districts there has been misunderstanding of the requirements of the law. In some cases, people are under the impression that they should at once lay in a sufficient supply for two weeks; this of course is not necessary because a continued supply of sugar is assured. In other cases it has been assumed that a greatly restricted ration is to be made effective in the near future. This is incorrect because The Wartime Prices and Trade Board has already stated that the sugar supply situation is such that requirements of the consumer at the rate of three-quarters of a pound per week can readily be supplied.

As a means of protecting consumers from unknowingly breaking the law, it is suggested to retailers that, for the present, they limit sales to any one customer to an amount of not more than five pounds.

Summary of Sugar Rationing Regulations

1. The ration is $\frac{3}{4}$ pounds per person per week, including adults, children and infants, members of the family, boarders, servants, and guests who remain for four days or more.
2. Purchase your sugar in the ordinary way, but not more than two weeks' supply at a time. No coupons, stamps or tickets are required.
3. Do not purchase any sugar if you have two weeks' or more supply on hand.
4. Persons in remote areas who are not able to buy every week or two weeks may continue to buy more than two weeks' supply at a time, but should measure their consumption at the ration rate, namely $\frac{3}{4}$ pounds per person per week.
5. Lumber camps and other firms providing board for their employees must see that consumption is restricted to $\frac{3}{4}$ pounds per week per person, effective immediately.
6. Economize on sugar in every way you can; some people can get along on less than the ration. Persons dining in hotels, restaurants, etc., are expected to restrict their sugar consumption.
7. Additional supplies of sugar will be made available for home preserving and canning.
8. The restriction applies only to cane and beet sugars of all kinds—granulated sugar, icing sugar, fruit sugar, brown sugar, raw sugar, etc.
9. Industrial users of sugar, hospitals and other institutions, hotels and restaurants, will be advised by the Sugar Administrator how the sugar restrictions will affect them.
10. Retailers are entitled to refuse sale or to limit sales to any person they have reason to believe is attempting to disregard this law.

Vigorous steps will be taken to punish wilful infractions of the law. The penalties provided are imprisonment for as long as two years and a fine up to \$5,000
